

Please KEEP the Do not call law as it is. It is wonderful not having interruptions during dinner, Sunday mornings and in general soley to sell something the majority of consumers do not want! i.e, my mother, who lives in Oakland, NJ, received a call for chimney cleaning. She told them she doesn't have a chimney, the caller laughed at her and told her in a few words that she was lying...my mom has total electric power in her house.

Thank you.
